

# PORT+ PRODUCTSHEET

## PORTCALL MOBILE

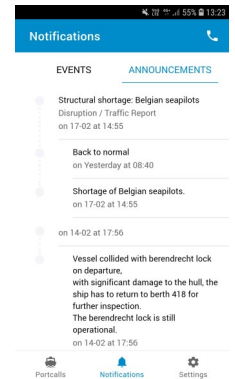

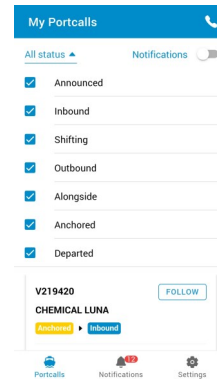

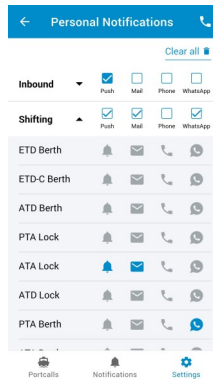

Real time information and notifications about vessel movements in one app

**BENEFITS**

- \* Get real time notifications of your choice (push, whatsapp, e-mail, live call)
- \* All information related to vessel movements in 1 app
- \* Information and updates anytime and anywhere

**FOR WHO**

- \* Ship and port agents
- \* Anyone interested in vessel movements

### Real-time vessel movement information

The PortCall Mobile app is the reporting tool for the Antwerp ship agents. One app to track all the movements of their incoming, outgoing or shifting vessels.

Integrated with C-Point / APICS, the Port of Antwerp platform, we provide the most reliable real time data.

Follow your vessels and get notified of the ETA, ATA, RTA, PTA, and so much more. And you can choose how to be notified :

- Live call
- Whatsapp/SMS
- E-mail
- Push notification

When the voyage of your vessel is completed you can also download a detailed report in CSV format (Statement of Facts). We also provide live notifications about traffic disruptions like weather conditions, lock out of order, pilots shortage,.....

The PortCall Mobile app is available via the App Store or Google Play Store. Access has to be requested via Port+.

### About Port+

Port+ is an independent maritime information provider that brings together data from various sources into transparent, personalized platforms, services and solutions in order to increase logistical efficiency in the maritime supply chain for all actors involved.
